

# How to join ICO/Exchange

In the first days of ICO, our community have expressed the need of having a documentation for investors in the process of getting LUSO at this ICO.

Requirements:

- Desktop/Laptop (not tested in mobile)
- Bitcoin
- LUSO address

We provide you with the following steps:

## 1. **Getting LUSO address**

*(If you already have LUSO address, skip to step 2.)*

1. Open your browser, and navigate to the website <https://lusoco.in/>
2. Scroll down, find your Computer system, download the wallet, open it.
3. Once wallet shows up, navigate to Receive tab.
4. Use the button Request Payment.
5. Now you have a new address, it must start with L, something like:  
LPj7LodAYKxmd4wDsABYLxpJnDSdGpdmKv

## 2. Buying LUSO

1. Open your browser, and navigate to the website <https://ico.lusoco.in/>

**LUSOcoin**  
Private ICO exchange

LUSOcoin is an ideological currency for peaceful purposes. It was conceived to be a tool that will be used by the lusophonous community and the Luso network to resist the negative effects of globalization. In the first phase it will finance groups / individuals that are decentralized from the political-economic model and whose work is for the benefit of the community. In the second phase, Luso will be introduced as a community currency to develop the local economy thus promoting not unreasonable profit but social welfare. All Lusophone as well as members of the luso network will share a platform where it will be possible to interact, advertise products and services, promote their culture and customs.

**Whitepaper**

The following exchange is a prototype, every functionality works exactly like any other exchange, but in this case we are monitoring daily and manually running the procedure scripts for the later automation. This exchange has some differences from the other exchanges, like:

- No registration needed
- Only fee's from transactions
- Simple captcha to avoid automations
- Fast & Anonymous transactions

The future of this exchange system will depend on the current adoption, we have some improvements scheduled for the future already.
